

Euratlas Periodis Editor Description

Euratlas Periodis Editor Simple License is a set of vector historical maps in Corel Draw 13 (CDR) format, which comes along with the program *Euratlas Periodis Expert Single License* English version.

Thus, the *Euratlas Periodis Editor* pack consists of:

- 21 editable vector (CDR) historical mute base maps, one for each centennial year from AD 1 to AD 2000,
- the program *Euratlas Periodis Expert Single License* English version.

Each base map is made of 16 layers which order, names, fonts and colors can be changed by the user.

Here below is the layers's list.

- 1) Contour lines for 200 meters.
- 2) Contour lines for 500 meters.
- 3) Contour lines for 1000 meters.
- 4) Contour lines for 2000 meters.
- 5) Contour lines for 3500 meters.
- 6) Mute shapes of the 2nd level administrative divisions (provinces, counties etc.) and dependent states.
- 7) Mute full shapes of the sovereign countries.
- 8) Mute shapes of the 1st level administrative divisions (dioceses, regions etc.) if applicable.
- 9) Approximate areas occupied by unorganized peoples, if applicable.
- 10) Undefined borders areas, if applicable.
- 11) Seas and large lakes.
- 12) Main water courses.
- 13) Large rivers.
- 14) Dots marking the positions of the cities of grade 4 & 5.
- 15) Names (endonyms) of the cities of grade 4 & 5.
- 16) Latitudes and longitudes grid every 5 degrees.

The maps are provided along with the program *Euratlas Periodis Expert* so that each user will be able to find the names of the entities and to add them, according to needs, on the mute base maps.

The End-User shall use the Data for press advertising, brochure, poster, corporate identity, infography, any paper edition or publication, postcards, calendars, tee-shirts up to 1 500 copies or for websites with less than 500 000 visitors per month. Any printed map must mention the following credit line:
